

Drop-In Tutoring - Spring 2016

The MESA Community College Program offers free drop-in tutoring to support coursework in math, physics, engineering, chemistry and biology. Drop-in services are open to all SRJC students. In the spring semester, this drop-in tutoring is supplemented with self-directed study group work. To learn more about this feature, come to the MESA Center.

No appointment is necessary. MESA is located on the 3rd floor of Bertolini, room 4832.
